

Universal Aluminium Doorframe Kit

Description

Siniat Universal Aluminium Doorframe kits are precision pre mitred to provide an easy to install doorframe in a Siniat drywall system. Doorframe kits are available for 76 or 89mm systems and due to just being the frame and bubble gasket without hinges and lock cut-outs are suitable for either left or right handed doors. Doorframe side sections are supplied 2100mm in length to allow the bottom floor edge to be trimmed square for a perfect fit.

Intended use

All Internal commercial and residential 813mm x 2030mm drywall door openings.

Compliance to Standards

SANS 2001:EC1:2010: South African National Standard: Construction Works: Part EC1: Ceilings, partitions and access flooring.
